EDUCATION

New Era University
BS in Computer Science
3rd Year

Aug 2023 – Present
Quezon City, Metro Manila

Relevant Coursework: Object Oriented Programming, Application Development, Automata Theory, Human Computer Interaction, Information Management, Data Structures and Algorithms, Discrete Structures, Networking and Communication, Modeling and Simulation

WORK EXPERIENCE

BlueShirt Philippines
Software Testing Intern

June 2026 – Present
Quezon City, Metro Manila

- Perform manual testing across web and mobile applications to identify functional defects, UI inconsistencies, and usability issues before software release.
- Execute functional and regression testing to verify new features and ensure existing functionality remains stable.
- Document software defects with clear reproduction steps, expected behavior, severity, and supporting evidence to facilitate efficient bug resolution.
- Develop and maintain automated testing scripts that improve testing efficiency and reduce repetitive manual testing.
- Collaborate closely with developers to validate bug fixes and ensure software meets quality standards before deployment.
- Evaluate application workflows, user experience, and overall functionality, providing actionable recommendations for product improvement.

TECHNICAL SKILLS

Programming Languages: Java, Python, HTML, PHP, SQL, TypeScript, CSS
Databases: MySQL (MySQL Workbench)
Cloud & Tools: Git, GitHub, Oracle, Docker, VSCode, Claude, Anthropic

PROJECTS

Hotel Booking System

August 2025-November 2025

- Developed a responsive hotel booking web application that allows users to browse accommodation packages, submit reservations, and manage booking information.
- Built an administrator authentication system for secure access to management features.
- Implemented core booking workflows, package management, and user interaction functionality.

Tech Stack: TypeScript, HTML, CSS, MySQL

Book Management System

January 2026-March 2026

- Developed a full-stack web application for managing personal book collections.
- Designed and implemented complete CRUD functionality for creating, viewing, editing, and deleting book records.
- Built a responsive user interface with database integration for persistent data storage.

Tech Stack: PHP, MySQL, InfinityFree Hosting

CERTIFICATIONS

- SQL and Relational Databases 101
- Oracle Cloud Infrastructure Foundations Associate
- Oracle Cloud Infrastructure Data Foundations Associate
- Oracle Cloud Infrastructure AI Foundations Associate
- Gemini Certification for Students
- Anthropic: Claude 101
- Anthropic: Claude Code 101
- Anthropic: Claude Cowork 101

ORGANIZATIONS AND AFFILIATES

Association of Computer Science Students (ACSS)

Values Infusion Committee Secretary and Sports and Technical Committee Member

- Served as Secretary of the Values Infusion Committee, responsible for documenting and maintaining accurate records of committee meetings, drafting correspondence, and ensuring the organized dissemination of information to members and stakeholders.
- Concurrently held a dual membership in both the Sports Committee and the Technical Committee, demonstrating versatility and a commitment to the organization's holistic development.
- Contributed to the conceptualization and coordination of sports events and activities that fostered camaraderie, teamwork, and school spirit within the computer science student community.
- On the technical side, assisted in the planning and implementation of tech-oriented events, workshops, and competitions designed to enhance the skills and industry readiness of fellow students.
- Collaborated closely with officers and fellow committee members across multiple teams to ensure the seamless execution of organizational activities and uphold the standards of the association.

NEU Project Paradigm

Production Committee Head and Shoutcaster

- Led and managed the Production Committee, overseeing the planning, coordination, and execution of production elements for the organization's events and projects.
- Directed a team responsible for ensuring high-quality audio, visual, and technical output across all productions, maintaining consistency and professionalism in every output delivered.
- Simultaneously served as an official Shoutcaster, providing live commentary and play-by-play coverage during events, contributing to audience engagement and the overall entertainment value of the organization's activities.
- Applied strong communication, leadership, and technical skills to manage both behind-the-scenes production and on-stage responsibilities.
- Consistently collaborated with other committees to align production goals with the broader vision of NEU Project Paradigm.
